

COVID-19

An End Stage Renal Disease (ESRD) National Coordinating Center (NCC) Professional Education Quickinar

July 29, 2020

Coronavirus Disease 2019 = COVID-19

Future COVID-19 Webinar Events

- Starting August 5, webinar events move to a new time and will last 1 hour.

Provider-focused event
August 5 at 3 p.m. ET

Patient-focused event
August 11 at 4 p.m. ET

Agenda

- What is this call about?
- Today's speakers
 - Janice I.P. Lea, MD, MSc, FASN, FASH
 - Chief Medical Director Emory Dialysis
 - Director of Telenephrology
 - Clinical Specialist in Hypertension
 - Emory University School of Medicine
- Topic: COVID-19: Separating Myths From Facts
- Questions and answers (Q&As) from chat and Q&A panels

What Is This Call About?

- Hear from experts who share tips for coping in a COVID-19 environment.
- Provide real-world experiences for others to put into use.
- Engage in weekly calls on varying topics.

Janice I.P. Lea, MD, MSc, FASN, FASH

Chief Medical Director Emory Dialysis

Director of Telenephrology

Clinical Specialist in Hypertension

Emory University School of Medicine

Separating Myths From Facts

- If you are asymptomatic, should you be tested again after knowing someone you have been in contact with has tested positive for COVID-19?

Separating Myths From Facts

- Not everyone is wearing masks correctly or recommending when to wear them consistently. My doctor recommended wearing a mask all the time, even when walking outside or driving. When should a person wear a mask and what is the proper way to wear one?

Separating Myths From Facts

- We know COVID-19 is airborne and affects the respiratory system. We are told to cover our mouths and noses. However, our eyes are a gateway to our bodies. Are the eyes another pathway to possibly contracting COVID-19?

Separating Myths From Facts

- A face mask and a shield protects you from a person who is not wearing a face mask or a shield.

True or False?

Separating Myths From Facts

- Can our pets develop COVID-19?

Separating Myths From Facts

- Is it true that a person can get COVID-19 more than once?

Separating Myths From Facts

- Kidney transplant patients are at a higher risk of developing COVID-19.

True or False?

Separating Myths From Facts

- You will not catch COVID-19 if you are outdoors.
True or False?

Separating Myths From Facts

- The long-term effects of COVID-19 include weak lung capacity and damage to the heart.

True or False?

Separating Myths From Facts

- Since I am elderly, if I had COVID-19, it would be more difficult for me to pass it on to my grandkids.

True or False?

Let Us Hear From You

- Q&As from chat and Q&A panels
