

# Medical Appointment Tracker

One of the most important things you can do **before you leave the hospital** is to make sure your follow-up doctors' appointments have been scheduled. Know who you need to see, when, where, and why. Then, be sure to keep your appointments!

Appointment Date	Appointment Time	Doctor's Name, Office Location*, and Phone	Reason for Visit
<i>Example</i> June 5	<i>Example</i> 10 a.m.	<i>Example</i> Dr. Jane Doe 1234 Street, Suite 200 XYZ Town and Zip Code 123.456.7891	<i>Example</i> Medication review

\*While you may know how to get to your doctor's office or the local lab for tests, someone helping you may not. It can be helpful to have the correct office or lab address written down, including ZIP code for GPS directions!
